November 24th, 1934.

Dear Herb:

The board of directors has instructed me to write you this letter - and to try my utmost to convince you of its sincerity. The matter, of course, still has to do with the unfortunate incident that occurred last winter in connection with your handling of the now famed ten meter QSO contest.

The present board, just as the last board, most sincerely and unanimously feels that you are certainly entitled to the highest award in that contest. We all know that you have surely carried on the greatest amount of experimental work of anyone involved in that contest, and all of us who took part in it readily admit that you had the best ten meter signal on the air - and that, together with your many hours of listening and experimenting on that band, surely made you deserving of the fine success you experienced in the contest. We furthermore feel that you did a splendid job of handling the contest and apportioning the excellent list of prizes, many of which were secured through your earnest efforts to make the party a big success - even going so far as to donate a valuable prize yourself.

The entire board and I, myself, Herb, feel that these are the sentiments of the big majority of the membership. We all regret the strained relations, and the wound caused by the unbridled remarks of a very, very small minority. We believe that the very large majority of the members of M. R. A. C. hold you in high esteem - and we value greatly and desire your friendship.

Doc Rosenbaum has given me a check for $10.10, enclosed, which amount includes your first prize of $9.10 and $1.00 which you paid as dues. For the sake of the vast majority of M. R. A. C, and the entire board, won't you reconsider this issue, Herb? The prize award is uncontestably and justly yours and is well merited; and your honorary membership in the club is something we are just as proud of as we hope you can again be. We want you to feel that this rightfully belongs to you, and earnestly hope you will see fit to accept it.

In conclusion, Herb, don't say you're through; give those of us who feel the injustice of the incident an ear. We sincerely hope you will be induced to accept your legitimate award for your earnest efforts in the ten meter contest - and that you will permit us to carry you forever as an honorary member.

Fraternally, and with 73's,

George Wood
